

Can you help?

Please complete this survey

Is your child cared for in the North West of England, North Wales or the Isle of Man? This survey will help us to improve communication and improve the care that we give to children who have a heart problem. It will also celebrate good practice and make sure that this is being delivered across the whole of our Network.

To complete the survey

**copy this link into your web browser on your phone, tablet
or computer**
