

# Community Engagement

Scope's Community Engagement project gives disabled people, their families and unpaid carers the opportunity to talk about their communities and the issues they face.

Come up with project ideas to make the changes you want to see. Develop your ideas, share them with others and make them a reality!

We meet every month, in person and online. You can stay for the whole session or drop in as it suits you.

## Come and have your say

- Share your ideas and experiences
- Meet new people
- Make change in your community

New groups starting in October 2022.
